HYDROGEN PLUS OXYGEN

Youth Summer Day Program Water World Science INDIANOLA YMCA

What is water all about? Water is one hydrogen and two oxygen but what does that mean? Have your child join us for a fun day filled with science experiments that teach us more about water and how it interacts with other compounds and substances. In this program we will create lava lamps in a cup and we will create rain in a jar. Space is limited so sign up today by calling the Indianola YMCA at 515-777-7746.
